RE: GPS Tracking System Implementation and Service

Dear Bob,

On behalf of the Tahoe City Public Utility District staff and Board of Directors, I would like to commend you and Norma and the staff at Fleet Solutions for their efficient implementation and set up of our fleet tracking system.

Within ten days of issuing a purchase order, your staff had installed and set up approximately 30 vehicles in the system. We also appreciate your staff's willingness to come in on a Saturday to perform the majority of the installs which minimized any disruption to the Districts operation.

With the system in operation only four days, we are already seeing benefits and hope to continue to gain efficiency over time as the full capabilities of the system are explored.

Once again, thank you for your professional and efficient implementation of our system. If you have any questions, I can be reached at (530) 583-3796, ext 36 or by email at: tlaliotis@tcpud

Sincerely,

A handwritten signature in black ink, appearing to read 'Tony Laliotis', written in a cursive style.

Tony Laliotis
